

ACADEMY FOR POSITIVE LEARNING

A4PL is committed to promote cooperative education with diverse students to inspire lifelong learners.

September 27, 2022

To Whom it May Concern:

Although Academy for Positive Learning did not have a sample of ten students per grade, student growth towards goals is measured by calculating the average of Florida Statewide Assessment (FSA) scores by the students tested per grade level. Below is an explanation of student performance FSA data per subject and per grade. Overall achievement gains are measured by, calculating the scores for Mathematics, English Language Arts (ELA), Civics, and Science for students who received a full year of instruction. Student progress is tracked using progress monitoring data from diagnostic, formative, interim and summative assessments. Factors for a more comprehensive approach to determining growth and gains include consideration of special factors. These factors constituent environmental and socioeconomical indicators. More specifically, English Language learner (ELL) status, Exceptional Student Education (ESE), free and reduced lunch eligibility criteria.

A summary of Florida Statewide Assessment ELA performance data

In 3rd grade ELA the FSA was a pass rate of 90%. 8 of 9 students scored a level 3 or 4. 1 student scored a level 1 as 1st year ELL. The 3rd grade overall ELA proficiency rate averaged 90%.

In 4th grade ELA based on a sample of 3 students 33% of students passed with a level 3, 33% scored a level 2 and 33% scored a level 1 as a 2nd year ELL. The 4th grade overall ELA proficiency rate averaged 33%.

In 5th grade ELA based on a sample of 11 students 18% passed with a level 3, 55% scored a level 2 and 27% scored a level 1. The 5th grade overall ELA proficiency rate averaged 18%.

In 6th grade ELA based on a sample of 9 students 44% percent passed with a level 4, 22% passed with a level 3, 11% scored a level 2 as an ESE/ELL student and 22% scored a level 1 as ELL. The 6th grade overall ELA proficiency rate averaged 66%.

In 7th grade ELA based on a sample of 9 students 11% passed with a level 5, 33% passed with a level 4, 11% passed with a level 3, 22% scored a level 2, and 22% scored a level 1 as ELL. The 7th grade overall ELA proficiency rate averaged 55%.

In 8th grade ELA based on a sample of 8 students 25% passed with a level 5, 50% passed with a level 3, and 25% scored a level 2. The 8th grade overall ELA proficiency rate averaged 75%.

A summary of Florida Statewide Assessment Mathematics performance data

In 3rd grade Mathematics based on a sample of 9 students 44% of students passed with a level 3, 33% scored a level 2 (within 2 points of level 3), and 22% scored a level 1. The 3rd grade overall Mathematics proficiency rate averaged 44%.

ACADEMY FOR POSITIVE LEARNING

A4PL is committed to promote cooperative education with diverse students to inspire lifelong learners.

In 4th grade Mathematics based on a sample of 3 students 33% of students passed with a level 3, 33% scored a level 2 (within 3 points of level 3) and 33% scored a level 1 as a 2nd year ELL. The 4th grade overall Mathematics proficiency rate averaged 33%.

In 5th grade Mathematics based on a sample of 11 students 27% passed with level 4, 45% passed with a level 3, 18% scored a level 2 and 9% scored a level 1. The 5th grade overall Mathematics proficiency rate averaged 72%.

In 6th grade Mathematics based on a sample of 9 students 22% percent passed with a level 4, 11% passed with a level 3, 33% scored a level 2 (within 2 points of level 3) and 33% scored a level 1. The 6th grade overall Mathematics proficiency rate averaged 33%.

In 7th grade Mathematics based on a sample of 9 students 11% passed with a level 5, 22% passed with a level 4, 22% passed with a level 3, 11% scored a level 2, and 33% scored a level 1. The 7th grade overall Mathematics proficiency rate averaged 55%.

In 8th grade Mathematics based on a sample of 8 students 25% passed with a level 5, 12% passed with level 4, 38% passed with a level 3, 12% scored a level 2, and 12% scored level 1. The 8th grade overall Mathematics proficiency rate averaged 75%.

A summary of Florida Statewide Assessment NGSSS Science performance data

In 5th grade NGSSS Science based on a sample of 11 students 90% passed with a level 3, and 10% scored a level 1. The 5th grade overall NGSSS Science proficiency rate averaged 90%.

In 8th grade NGSSS Science based on a sample of 8 students 12% passed with a level 5, 38% passed with level 4, and 50% passed with a level 3. The 8th grade overall NGSSS Science proficiency rate averaged 100%.

A summary of Florida Statewide Assessment NGSSS Civics performance data

In 7th grade NGSSS Civics based on a sample of 9 students 33% passed with a level 5, 22% passed with a level 4, 22% passed with a level 3, and 22% scored a level 2. The 7th grade overall NSGGG Civics proficiency rate averaged 77%.

Upon the review of the FY2021-2022 the FSA data Academy for Positive learning demonstrates students' performance has met the expectation outlined in the charter school agreement.

Sincerely,

Renata Espinoza
Principal
